

Michigan Silversmiths Guild Workshop

The Basics of Studio Casting with Linus Drog

AU Enterprises:

Fine Craftsmanship through Cutting-Edge Technology AU Enterprises has provided precious metal manufacturing to a wide spectrum of clients for nearly twenty years. Utilizing state-of-the-art technology, we create custom pieces that reflect the craftsmanship of old-world artisans. Au offers our clients a versatility that meets all of their casting needs. From simple injecting to complex projects that begin with only a remedial sketch, Au consistently delivers exceptional pieces.

At AU, the ancient practice of lost wax casting is used to create a variety of pieces, from simple to extraordinarily complex designs. We feel it's of paramount importance to match the piece to the most effective method of casting. We offer four different methods of lost wax casting.

Workshop Description:

Linus will go over the basics of studio practices and tips on how to successfully cast your work. He will review many of the issues that arise in casting. This is informative session and will include some demonstrations.
