Wanda Billops has tools
for sale!

Attached are pictures of
my jeweler's press
(about 25" tall).

It's about years old. I've
only used it 3 times and
because it is used I'm
selling it AS-IS.

It comes with the
accessories shown. A
20 ton Norco jack,
urethane, plastic for
molds and pressing, and
the Hydraulic Press
book.

I paid \$1,700 for this
tool. I'm selling it for
\$900.

I'm located in Jackson,
Michigan. I can be
reached by phone call
or text at [313-580-5312](tel:313-580-5312).

I'm letting it go because
I'm not using it. It
works, but I haven't
used it in a while.

I would hate to try to
ship this thing, so I'm
asking that the buyer
pick it up in person.
